

Learning Management System (LMS) Help

BROWSER INFORMATION

The recommended internet browser for use with the LMS is Google Chrome. The four most common browsers are shown below, with information on LMS performance and appearance. The LMS may have a different appearance on mobile devices and tablets.

GOOGLE CHROME is the recommended browser.

FIREFOX has some known display and processing issues interacting with the LMS. If you experience problems, try the following:

1. Refresh the page
2. Empty the browser cache
3. Log out and then log back in
4. Use a different browser

INTERNET EXPLORER has issues with page appearance and function. If you experience problems, try the following:

1. Refresh the page
2. Empty the browser cache
3. Log out and then log back in
4. Use a different browser

SAFARI has no known issues interacting with the LMS.
